

# York Kids Fun Triathlon – Main Arena

## Information

- Go to our ([www.uktriathlon.co.uk](http://www.uktriathlon.co.uk)) website to see how many lengths of the swim, laps of the bike and run course your children will need to do to complete their triathlon.
- The bike and run courses are flat and mostly on a very good tarmac surface.
- Make sure you read your children's event day information for a comprehensive outlook about the kids fun event.
- Distances will be made clear for the children on the day of the event via their event brief, signs around the course and marshals guiding them in the right direction.
- Swim caps will be given to the children when they are poolside and ready to start their event.
- If you're not sure about anything on the day, ask any member of the race crew around the course and at registration.
